OFFICE OF PETITIONS

PETITION UNDER 37 C.F.R. § 1.10(d)

SIR:

In regard to the above-referenced patent application, Applicants petition for a correction to the accorded filing date as reported on an updated filing receipt mailed May 9, 2002. While this receipt reports a filing date of December 19, 2001, Applicants respectfully submit that the application was received by the USPS on December 18, 2001 for delivery to the U.S. Patent and Trademark Office as Express Mail.

Upon information and belief, Applicants deposited the above-referenced patent application with the USPS on December 18, 2001, and received a copy of Express Mail Receipt EV014264064US with a "date in" erroneously shown as December 19, 2001. Upon information and belief, the true "date in" of December 18, 2001 is however reflected in the USPS Shipping History database, as shown in an attached true copy of a report from this database.

As further evidence demonstrating the true "date in" for the above-referenced application is December 18, 2001, upon information and belief, a true copy of a return post card for the filed application is attached to this petition. This post card indicates that

Filed by Express Mail
(Receipt No. EV0112743746)
on August 6, 2002
pursuant to 37 C.F.R. 1.10.
by [signature]

the application was mailed on December 18, 2001 in Express Mail package 014264064.

Further, upon information and belief, Applicants attach a true copy of the first page of the above-referenced application that was included as part of this package. This first page includes a stamp indicating that the application was filed in Express Mail package EV014264064 on December 18, 2001.

Accordingly, Applicants respectfully petition the Commissioner to accord the application a corrected filing date of December 18, 2001, and to provide Applicants with a corrected filing receipt reflecting this application date.

Any fee, due as a result of this paper may be charged on Deposit Account No. 50-1290.

Respectfully submitted,

Thomas J. Bean

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Object display program for conducting voice manipulation of character

Preliminary Class

463

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**OBJECT DISPLAY PROGRAM FOR CONDUCTING VOICE
MANIPULATION OF CHARACTER**

5 This application is related to Japanese Patent
Application No. 2000-399856 filed on December 22, 2000 and
No. 2001-349841 filed on November 15, 2001, based on which this
application claims priority under the Paris Convention and
the contents of which are incorporated herein by reference.

10

BACKGROUND OF THE INVENTION

1. Field of the Invention

 The present invention relates to an object display
method, an object display program to be executed on a computer,
15 a computer-readable recording medium having recorded therein
an object display program to be executed on a computer, a
program execution apparatus for executing an object display
program, all of which are suitable for, for instance, a video
game unit, an entertainment apparatus with video game
20 function and so forth.

2. Description of the Related Art

 Nowadays, a video game unit for executing a video game
on the basis of a game program of being recorded in recording
medium, such as CD-ROM, DVD-ROM semiconductor memory or so
25 forth is in widespread use.

 In this video game unit, a character of being displayed
